process

@Scott Rollins - how do you fulfill the valuable, even essential, need to have Q&A and share Q&A from other VPI "meeting" participants for a particular issue or project?

14:26:57 From Scott Rollins (MaineDOT) to Everyone:

Each question or comment is answered directly by the Project Manager. People do not see other questions or comments, so they instead make their own comment and not pile on someone else's. We do share comments after the comment period.

14:31:32 From Valerie Jimenez to Everyone:

Great presentations, thank you all for sharing what your agencies have worked and are currently working on. Kansas Dept. of Transportation is looking to get something similar implemented at our agency (Process Improvements + Encouraging Innovation), lots of great ideas and suggestions from today that will be helpful for us as we look to accomplish these similar efforts at KDOT! Thanks all.
